

CUSTOM RESEARCH PROJECTS

Custom Research helps you define the problem statement for the engagement in a broader sense, that helps you focus on value creation instead of focussing just on the problem at hand.

Pharmaceutical API identification services for manufacturing

- Basis of Effluent treatment / effluent limits
- Basis of pollution standards (global - EU criterion)
- Basis of PLI scheme
- Basis of Atma Nirbhar declaration
- Basis of the existing manufacturing trends

To get a better understanding of how you can produce value with Custom Research services
